CONTENTS OF VOLUME 82

No. 1, October 1990

Announcement from the Publisher v

D. C. Poole and O. Mathieu-Costello (U.S.A.): Effects of hypoxia on capillary orientation in anterior tibialis muscle of highly active mice 1

M. Meyer (F.R.G.): Gas mixing in dog lungs during high frequency ventilation studied by partial washout-single exhalation technique 11

D. R. Spahn, R. Leuthold, E. R. Schmid and P. F. Niederer (Switzerland): Gas transport enhancement in high-frequency oscillation 29

G. Hahn, I. Sipinková, C. Buess, M. Meyer and J. Piiper (F.R.G.): Multiple breath washout of He and SF_6 in panting dogs 39

R. L. Begle and J. B. Skatrud (U.S.A.): Hyperinflation and expiratory muscle recruitment during NREM sleep in humans 47

S. Lakshminarayan, T. F. Kowalski, W. Kirk, M. M. Graham and J. Butler (U.S.A.): The drainage routes of the bronchial blood flow in anesthetized dogs 65

R. J. Favier, D. Desplanches, R. Pagliari, B. Semporé, M. H. Mayet, B. Simi, J. M. Péquignot, J. Frutoso and R. Flandrois (France): Effect of almitrine administration on pulmonary arterial pressure in resting and exercising dogs 75

K. Tsuzaki and R. D. Kamm (U.S.A.): Flow distribution in a single bifurcation during high-frequency oscillation 89

J. G. Regensteiner, R. G. McCullough, R. E. McCullough, C. K. Pickett and L. Grindlay Moore (U.S.A.): Combined effects of female hormones and exercise on hypoxic ventilatory response 107

D. Georgopoulos, D. Berezanski and N. R. Anthonisen (Canada): Effect of dichloroacetate on ventilatory response to sustained hypoxia in normal adults 115

C. A. Smith, D. M. Ainsworth, K. S. Henderson and J. A. Dempsey (U.S.A.): The influence of carotid body chemoreceptors on expiratory muscle activity 123

No. 2, November 1990

Announcement from the Publisher iii

T. Binzoni, G. Ferretti, F. Barbalat and P. Cerretelli (Switzerland): Energetics of resting anaerobic frog gastrocnemius at different temperatures by ^{31}P-NMR 137

J.-M. I. Maarek, D. A. Chartrand, T.-H. Ye and H. K. Chang (U.S.A.): Pulmonary lobar vascular resistances during constant and pulsatile flows 149

D. A. Bascom, I. D. Clement, D. A. Cunningham, R. Painter and P. A. Robbins (U.K.): Changes in peripheral chemoreflex sensitivity during sustained, isocapnic hypoxia 161

S. H. Loring, J. Mead and Th. B. Waggener (U.S.A.): Determinants of breathing frequency during walking 177

R. F. Fregosi, D. Bartlett Jr. and W. M. St. John (U.S.A.): Influence of phasic volume feedback on abdominal expiratory nerve activity 189

S. Lahiri, A. Moskashi, M. Shirahata and S. Andronikou (U.S.A.): Chemical respiratory control in chronically hyperoxic cats 201

J. W. Anderson, F. B. Sant'Ambrogio, G. P. Orani, G. Sant'Ambrogio and O. P. Mathew (U.S.A.): Carbon dioxide-responsive laryngeal receptors in the dog 217

L.-Y. Lee (U.S.A.): Inhibitory effect of gas phase cigarette smoke on breathing: role of hydroxyl radical 227
M. M. Warner and G. S. Mitchell (U.S.A.): Ventilatory responses to hyperkalemia and exercise in normoxic and hypoxic goats 239
P. J. Berger, R. S. C. Horne, M. Soust, A. M. Walker and J. E. Maloney (Australia): Breathing at birth and the associated blood gas and pH changes in the lamb 251

No. 3, December 1990

Announcement from the Publisher iii
M. A. Haxhiu, B. Haxhiu-Poskurica, V. Moracic, W. A. Carlo and R. J. Martin (U.S.A.): Reflex and chemical responses of tracheal submucosal glands in piglets 267
T. Art, L. Anderson, A. J. Woakes, C. Roberts, P. J. Butler, D. H. Snow and P. Lekeux (U.K., Belgium): Mechanics of breathing during strenuous exercise in thoroughbred horses 279
A. F. DiMarco, J. R. Romaniuk and G. S. Supinski (U.S.A.): Action of the intercostal muscles on the rib cage 295
J. U. Raj, R. Hillyard, P. Kaapa, J. Anderson and M. Gropper (U.S.A.): Pulmonary vascular pressure profile in 2–3-week-old, 5–6-week-old and adult ferrets 307
S. Lakshminarayan, T. F. Kowalski, W. Kirk and J. Butler (U.S.A.): The effect of bronchial venous pressure on pulmonary edema in the dog 317
E. S. Schelegle, R. A. Gunther, G. H. Parsons, S. R. Colbert, M. A. A. Yousef and C. E. Cross (U.S.A.): Acute ozone exposure increases bronchial blood flow in conscious sheep 325
J. Pizarro, J. W. Ludders, M. A. Douse and G. S. Mitchell (U.S.A.): Halothane effects on ventilatory responses to changes in intrapulmonary CO_2 in geese 337
R. L. Coon, P. S. Clifford, F. A. Hopp and E. J. Zuperku (U.S.A.): Reflex ventilatory effects of KCl stimulation of lung receptors with sympathetic afferents 349
O. P. Mathew, J. W. Anderson, G. P. Orani, F. B. Sant'Ambrogio and G. Sant'Ambrogio (U.S.A.): Cooling mediates the ventilatory depression associated with airflow through the larynx 359
T. L. Bucher, M. A. Chappell and K. R. Morgan (U.S.A.): The ontogeny of oxygen consumption and ventilation in the Adélie penguin, *Pygoscelis adeliae* 369
